August 18, 2020

COVID-19 Crisis Accelerates Ongoing Digital and Direct-to-Consumer Transformation Second Quarter e-commerce Revenue Increased Over 317% to a Record \$7.5 Million Second Quarter Active and Unique e-commerce Customers Increased Over 266% Compared to the Prior Year Period

BONITA SPRINGS, Fla., Aug. 18, 2020 (GLOBE NEWSWIRE) -- Innovative Food Holdings, Inc. (OTCQB: IVFH), ("IVFH" or "the Company"), an interconnected data-driven platform of specialty food companies that provide chefs and consumers direct access to the highest quality unique specialty food products as well as gift boxes and other curated products across the U.S., today reported its financial results for the second quarter and first half of 2020

"The COVID-19 pandemic has accelerated our ongoing transformation to a digitally-enabled, e-commerce-centric, direct-to-consumer and direct-to-chef company as second quarter e-commerce sales increased over 317% to a record \$7.5 million and unique e-commerce customers for the quarter grew over 266% to more than 79,500 unique customers. I am extremely proud of our team's response to the significant and rapid surge in e-commerce demand during the 2020 second quarter, and I am thankful that IVFH was able to provide customers across the country with essential food products in a safe and timely manner."

"As we head into the second half of the year and the upcoming holiday season, momentum across our direct and third-party e-commerce channels is accelerating. Our enhanced digital marketing strategy is producing favorable results, across all e-commerce channels including particularly strong record sales growth at Mouth.com during the second quarter. We believe that as positive e-commerce trends continue, there are significant specialty food and specialty grocery e-commerce opportunities for IVFH. In addition, as we move towards the coming launch of the new igourmet.com website, we are particularly excited about additional growth opportunities related to the execution of our expanded digital marketing strategies, which will leverage the expertise, synergies, and success achieved by the team at Mouth.com. Furthermore, during the third quarter, we plan on migrating our Pennsylvania operation to a new warehouse, which is expected to improve efficiencies and enhance logistics, packaging, and automation capabilities. As a result, we are targeting greater overall and per unit efficiencies and productivity, and higher profitability of e-commerce as we move towards the anticipated increased demand of the fourth quarter."

Mr. Klepfish continued "The COVID-19 crisis continues to have a meaningful impact on the specialty foodservice market. We are working hard to support our customers during this challenging period, and we believe we are strongly positioned to grow specialty foodservice revenues as economic conditions improve. Our direct-to-consumer e-commerce platform as well as our leading procurement and logistic capabilities allowed IVFH to quickly pivot resources and respond to the rapidly-changing market, which partially offset lower foodservice revenue during the quarter as a result of the COVID-19 crisis. We believe that IVFH's leading multi-channel infrastructure and e-commerce-centric platform are uniquely positioned to offer our products directly to a growing customer base. In addition, we continue to accelerate compelling partnership opportunities with large, national retailers and other specialty food companies, leveraging years of experience working with corporate partners. Going forward, we are focused on continuing to leverage the positive momentum underway at IVFH and the multiple opportunities we have to expand e-commerce sales and bottom-line profitability."

IVFH's revenue were \$12.0 million during the three months ended June 30, 2020, compared to \$13.9 million for the three months ended June 30, 2019. E-commerce revenue increased over 317%, driven by the Company's ability to increase customers, conversion and sales at its e-commerce properties and partially offset a 65% decline in specialty foodservice revenues. The decline in foodservice revenue was driven by the nationwide closures of restaurants and other foodservice establishments related to COVID-19. For the first half of fiscal 2020, total revenue was \$25.3 million, compared to \$26.8 million last year.

For the 2020 second quarter, IVFH had over 79,500 active and unique e-commerce customers, which is an increase of approximately 267% from the same period last year and is up nearly 100% from the 2020 first quarter.
