**1. BASIS OF PRESENTATION**

Basis of Presentation

The accompanying unaudited interim condensed consolidated financial statements of Innovative Food Holdings, Inc., and its wholly owned subsidiaries, Artisan Specialty Foods, Inc. (“Artisan”), Food Innovations, Inc. (“FII”), Food New Media Group, Inc. (“FNM”), Gourmet Foodservice Group, Inc. (“GFG”), and 4 The Gourmet, Inc (d/b/a For The Gourmet, Inc.) (“Gourmet”) (collectively, the “Company, or “IVFH”), have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. FNM currently holds the Company’s intellectual property rights related to its private label brand. All material intercompany transactions have been eliminated upon consolidation of these entities.

The accompanying unaudited interim condensed consolidated financial statements have been prepared by the Company, in accordance with generally accepted accounting principles pursuant to Regulation S-X of the Securities and Exchange Commission and with the instructions to Form 10-Q. Certain information and footnote disclosures normally included in audited consolidated financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. Accordingly, these interim financial statements should be read in conjunction with the Company’s financial statements and related notes as contained in Form 10-K for the year ended December 31, 2012. In the opinion of management, the interim unaudited condensed consolidated financial statements reflect all adjustments, including normal recurring adjustments, necessary for fair presentation of the interim periods presented. The results of the operations for the three months ended March 31, 2013 are not necessarily indicative of the results of operations to be expected for the full year.

**2. NATURE OF ACTIVITIES AND SIGNIFICANT ACCOUNTING POLICIES**

Business Activity

FII is in the business of providing premium foodservice establishments, including white tablecloth restaurants with the freshest origin-specific perishables and specialty food products direct from its network of vendors to the end users (restaurants, hotels, country clubs, national chain accounts, casinos, and catering houses) within 24 - 72 hours. For The Gourmet Inc., through its website [www.forthegourmet.com](http://www.forthegourmet.com), and through additional sales channels, provides the highest quality gourmet food products to the retail consumer market under the For The Gourmet line.

We currently sell the majority of our products through a distributor relationship between FII and Next Day Gourmet, L.P., a subsidiary of U.S. Foods (“USF”), a \$20 Billion broad line distributor. On May 18, 2012, the Company executed a Stock Purchase Agreement to acquire all of the issued and outstanding shares of Artisan Specialty Foods, Inc., an Illinois corporation (“Artisan”), Artisan was previously a supplier to the Company. Artisan is a supplier of over 1,500 niche gourmet products to over 500 customers in the Greater Chicago area.

Use of Estimates

The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. These estimates include certain assumptions related to doubtful accounts receivable, stock-based services, valuation of financial instruments, and income taxes. On an on-going basis, we evaluate these estimates, including those related to revenue recognition and concentration of credit risk. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. We believe our estimates have not been materially inaccurate in past years, and our assumptions are not likely to change in the foreseeable future.

On August 25, 2005, we entered into contracts which obligated the company under certain circumstances to issue shares of common stock in excess of the number of shares of common stock authorized. Under accounting guidance provided by FASB ASC 815-40-05, from August 25, 2005 through December 27, 2012, we accounted for all derivative financial instruments, including warrants, conversion features embedded in notes payable, and stock options, via the liability method of accounting. Accordingly, all these instruments were valued at issuance utilizing the Black-Scholes valuation method, and were re-valued at each period ending date, also using the Black-Scholes valuation method. Any gain or loss from revaluation was charged to operations during the period. On December 27, 2012, we entered into agreements (the "2012 Notes Payable Extension Agreement") with certain holders of its convertible notes which, among other things, created a minimum conversion price for the principal amount of the notes of \$0.05. Under accounting guidance provided by FASB ASC 815-40-05, this resulted in a change in accounting method for our derivative financial instruments to the equity method of accounting.

#### Significant Recent Accounting Pronouncements

Management does not believe that any recently issued, but not yet effective, accounting standards if currently adopted would have a material effect on the accompanying unaudited condensed consolidated financial statements.

### 3. ACQUISITIONS

#### Artisan Specialty Foods, Inc.

On May 18, 2012, the Company executed a Stock Purchase Agreement to acquire all of the issued and outstanding shares of Artisan Specialty Foods, Inc., an Illinois corporation ("Artisan"), from its owner, Mr. David Vohaska. The purchase price was \$1.2 million, with up to another \$300,000 (with a fair value of \$131,000) payable in the event certain financial milestones are met by April 30, 2014. During the three months ended March 31, 2013, the Company made a payment in the amount of \$37,500 to Mr. Vohaska for the attainment of certain of these financial milestones.

The purchase price was primarily financed via a loan from Alpha Capital Aktiengesellschaft (see note 10) in the principal amount of \$1,200,000. Prior to the acquisition, Artisan was a supplier and had sold products to the Company.

The total purchase price was allocated to Artisan's net tangible assets, with the residual allocated to intangible assets:

Closing cash payment	\$	1,200,000
Contingent purchase price		131,000
Total purchase price	\$	<u>1,331,000</u>
Tangible assets acquired	\$	918,515
Liabilities assumed		614,515(*)
Net tangible assets		304,000
Trade name		217,000
Non-compete agreement		244,000
Customer relationships		415,000
Goodwill		151,000
Total purchase price	\$	<u>1,331,000</u>

(\*) excluding the Line of Credit paid off with closing cash payment

Pro forma results

The following tables set forth the unaudited pro forma results of the Company as if the acquisition of Artisan had taken place on the first day of the periods presented. These combined results are not necessarily indicative of the results that may have been achieved had the companies always been combined.

	<b>For the Three Months Ended March 31,</b>

The Haley Group

The Haley Group, LLC is a food manufacture representative that manages the vendor relationships at a food distributor's corporate level. The Haley Group also provides their suppliers with guidance and assistance as needed at the distributor's regional and divisional level. The Haley Group provides these services in exchange for a combination of monthly retainers and percentages of future sales of client products. On November 2, 2012, the Company entered into an asset purchase agreement (the "Haley Acquisition Agreement") with Haley Group, LLC whereby the Company acquired all existing contracts between Haley Group and its customers for the following consideration: 300,000 shares (post reverse-split) of the Company's common stock; 150,000 shares (post reverse-split) of which vest immediately and 150,000 shares (post reverse-split) of which vest in one year under certain conditions; options to purchase 100,000 shares (post reverse-split) of the Company's common stock at a price of \$0.44 per share (post reverse-split); and \$20,000 cash contingent upon the attainment of future revenue milestones. The Haley Acquisition was valued at a total cost of \$119,645. This intangible fair value of the purchase amount was allocated to Haley Group's customer relationships and capitalized accordingly on the Company's balance sheet at March 31, 2013 and is being amortized over 3 years. During the three months ended March 31, 2013, the Company charged the amount of \$9,970 to operations related to the amortization of these intangible assets.

**4. ACCOUNTS RECEIVABLE**

At March 31, 2013 and December 31, 2012, accounts receivable consists of:

	<b>March 31, 2013</b>	<b>December 31, 2012</b>
Accounts receivable from customers	\$ 1,072,033	\$ 965,352
Allowance for doubtful accounts	(19,626)	(5,547)
Accounts receivable, net	<u>\$ 1,052,407</u>	<u>\$ 959,805</u>

**5. INVENTORY**

Inventory consists of specialty products which are warehoused in Naples, Florida and Lyons, Illinois, and other products held by Company's vendors. At March 31, 2013 and December 31, 2012, finished goods inventory is as follows:

	<b>March 31, 2013</b>	<b>December 31, 2012</b>
Finished goods inventory	\$ 546,612	\$ 517,631

**6. PROPERTY AND EQUIPMENT**Acquisition of Building

During the three months ended March 31, 2013, the Company purchased a building and property located at 28411 Race Track Road, Bonita Springs, Florida 34135 and with respect thereto entered into each of a Loan Agreement, Mortgage, Security Agreement and Note with Fifth Third Bank, each with an effective date of February 26, 2013. The property consists of approximately 1.1 acres of land and close to 10,000 square feet of combined office and warehouse space and was purchased as part of a bank short sale. It is anticipated that Company will move its operations to these premises during the second half of 2013. The purchase price of the property was \$792,758 and was financed in part by a five year note in the amount of \$546,000 carrying an annual interest rate of 3% above LIBOR Rate, as such term is defined in the Note.

A summary of property and equipment at March 31, 2013 and December 31, 2012, is as follows:

	<b>March 31, 2013</b>	<b>December 31, 2012</b>
Land	\$ 177,383	\$ -
Building	615,375	-
Computer Equipment	382,300	382,300

Less: accumulated depreciation	<u>(447,893)</u>	<u>(429,876)</u>
Total	<u>\$ 931,158</u>	<u>\$ 145,632</u>

Depreciation and amortization expense for property and equipment amounted to \$18,018 and \$2,877 for the three months ended March 31, 2013 and, 2012, respectively.

**7. INTANGIBLE ASSETS**

The Company acquired certain intangible assets pursuant to the acquisition of Artisan Specialty Foods and the acquisition of certain assets of The Haley Group (see note 2). The following is the net book value of these assets:

	<b>March 31, 2013</b>		
	<b>Gross</b>	<b>Accumulated Amortization</b>	<b>Net</b>
Trade Name	\$ 217,000	\$ -	\$ 217,000
Non-Compete Agreement	244,000	(45,750)	198,250
Customer Relationships	534,645	(75,543)	459,102
Goodwill	151,000	-	151,000
	<u>\$ 1,146,645</u>	<u>\$ (121,293)</u>	<u>\$ 1,025,352</u>
	<b>December 31, 2012</b>		
	<b>Gross</b>	<b>Accumulated Amortization</b>	<b>Net</b>
Trade Name	\$ 217,000	\$ -	\$ 217,000
Non-Compete Agreement	244,000	(30,500)	213,500
Customer Relationships	534,645	(44,823)	489,822
Goodwill	151,000	-	151,000
	<u>\$ 1,146,645</u>	<u>\$ (75,323)</u>	<u>\$ 1,071,322</u>

Total amortization expense charged to operations for the three months ended March 31, 2013 and 2012 was \$45,970 and \$0, respectively.

The trade name is not considered a finite-lived asset, and is not being amortized. The non-compete agreement is being amortized over a period of 48 months. The customer relationships acquired in the Artisan and Haley transactions are being amortized over a period of 60 and 36 months.

As detailed in ASC 350, the Company tests for goodwill impairment in the fourth quarter of each year and whenever events or changes in circumstances indicate that the carrying amount of the asset exceeds its fair value and may not be recoverable. As detailed in ASC 350-20-35-3A, in performing its testing for goodwill impairment, management has completed a qualitative analysis to determine whether it was more likely than not that the fair value of a reporting unit is less than its carrying amount, including goodwill. To complete this review, management followed the steps in ASC 350-20-35-3C to evaluate the fair values of goodwill and considered all known events and circumstances that might trigger an impairment of goodwill. The analysis completed in both 2012 and 2011, determined that there was no impairment to goodwill assets.

## 8. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

Accounts payable and accrued liabilities at March 31, 2013 and December 31, 2012 are as follows:

	<b>March 31, 2013</b>	<b>December 31, 2012</b>
Trade payables	\$ 1,227,685	\$ 1,325,490
Accrued payroll and commissions	43,407	51,282
Total accounts payable and accrued liabilities - non-related parties	<u>\$ 1,271,092</u>	<u>\$ 1,376,772</u>

At March 31, 2013 and December 31, 2012, accrued liabilities to related parties consisted of accrued payroll and payroll related benefits.

## 9. ACCRUED INTEREST

Accrued interest on the Company's convertible notes payable is convertible at the option of the note holders into the Company's common stock at prices of \$0.25 to \$1.00 per share (post reverse-split). There is a beneficial conversion feature embedded in the convertible accrued interest, which can be exercised at any time by the note holders. Through December 27, 2012, the Company had immediately charged the value of this beneficial conversion feature of convertible accrued interest to operations. At December 27, 2012, the Company entered into the 2012 Note Extension Agreements, the terms of which brought about a change in the Company's accounting for its convertible equity instruments from the liability method to the equity method.

During the three months ended March 31, 2013 and 2012, the amounts of \$0 and \$21,864, respectively, were credited to additional paid-in capital as a discount on convertible interest. The aggregate amount of discounts on convertible interest charged to operations during the three months ended March 31, 2013 and 2012 was \$0 and \$21,864, respectively.

At March 31, 2013, convertible accrued interest was \$782,992 (including \$42,046 to a related party), which is convertible into 3,131,972 shares (post reverse-split) of common stock; at December 31, 2012, convertible accrued interest was \$759,053 (including \$39,866 to a related party) which was convertible into 2,916,614 shares (post reverse-split) of common stock.

## 10. NOTES PAYABLE AND NOTES PAYABLE TO RELATED PARTIES

Discount on Notes Payable amortized to interest expense:	\$ 305,048	\$ -

The Company calculates the fair value of any beneficial conversion features embedded in its convertible notes via the Black-Scholes valuation method. The Company also calculates the fair value of any detachable warrants offered with its convertible notes via the Black-Scholes valuation method. The instruments were considered discounts to the notes, to the extent the aggregate value of the warrants and conversion features did not exceed the face value of the notes. These discounts were amortized to interest expense via the effective interest method over the term of the notes. The fair value of these instruments was charged to interest expense to the extent that the value of these instruments exceeds the face value of the notes.

The Company revalued the conversion options at each reporting period, and charged any change in value to operations. During the three months ended March 31, 2013 and 2012, the Company recorded a loss of \$0 and \$378,435 respectively, due to the change in value of the conversion option liability.

When convertible notes payable are satisfied by payment or by conversion to equity, the Company revalues the related conversion option liability at the time of the payment or conversion. The conversion option liability is then relieved by this amount, which is charged to additional paid-in capital. During the three months ended March 31, 2013 and 2012, conversion option liabilities in the amounts of \$0 and \$20,046, respectively, were transferred from liability to equity due to the conversion or payment of the related convertible notes payable.

From September 2005 through December 26, 2012, the Company accounted for conversion options embedded in convertible notes in accordance with FASB ASC 815-10-05. ASC 815-10-05 generally requires companies to bifurcate conversion options embedded in convertible notes from their host instruments and to account for them as free standing derivative financial instruments in accordance with ASC 815-40-05.

Effective December 27, 2012, the Company entered into agreements (the “2012 Notes Payable Extension Agreement”) with certain convertible note holders regarding twenty-five convertible notes in the aggregate amount of \$2,037,249 in principal and \$719,187 in accrued interest. Pursuant to the 2012 Notes Payable Extension Agreement, the maturity date of each note and accrued interest was extended to February 1, 2014 (unless the original maturity date is beyond the extended date, in which case the original maturity date will not change); the expiration date of each warrant associated with each of the notes was extended to August 1, 2015 (unless the original expiration date of each warrant was beyond August 1, 2015, in which case the original expiration date will not change); the minimum conversion price of the note and accrued interest, in the case of any adjustment to such price, was set to be \$0.05 per share (post reverse-split). The Company also agreed that for as long as the convertible notes are held by the existing note holders, it will not issue any common stock or other securities convertible into or exercisable for shares of common stock at a price of less than \$0.05 per share (post reverse-split). Accordingly, the conversion option and warrants were reclassified from liability to equity since the conversion and exercise prices were fixed and all other conditions were met to classify the conversion feature and warrants as equity.

The Company revalued its derivative equity instruments at December 27, 2012 using the Black-Scholes valuation method, and recorded losses on revaluation in the amount of \$478,822 for the conversion options, \$566,063 for the warrants, and \$103,248 for stock options. This resulted in liabilities in the amount of \$2,088,475 for the value of the warrants, \$1,708,528 for the value of the conversion options, and \$411,792 for the stock options. The value of the warrants and conversion options (a total of \$3,797,001) was eliminated, and recorded as a gain on extinguishment of debt. The value of the stock options of \$411,792 was eliminated, and recorded as a charge to additional paid-in capital.

Pursuant to debt extinguishment accounting, the Company charged to interest expense the unamortized amount of the discount on the related convertible notes at December 27, 2012 in the amount of \$824,286. Prior to December 27, 2012, the Company had amortized \$13,899 of the discount. At December 27, 2012, the Company recorded a new discount on the convertible notes in the aggregate amount of \$1,918,993, which was charged to additional paid-in capital.

At December 27, 2012, the aggregate value of the unamortized discount on the notes payable affected by the 2012 Notes payable Extension Agreement was \$830,837 which amount was charged to operations. The Company recorded new discounts on notes payable in the aggregate amount of \$1,918,993, which was recorded as an increase in additional paid-in capital.

During the year ended December 31, 2012, the Company calculated an original issue discount (“OID”) related to the acquisition of Artisan Specialty Foods, Inc. in the amount of \$120,000 on a note payable in the total principal amount of \$1,200,000. During the three months ended March 31, 2013, this discount was amortized to interest expense in the amount of \$1,381.

At March 31, 2013 and 2012, the Company had unamortized discounts to notes payable in the aggregate amount of \$1,563,435 and \$0, respectively.

## 12. CONTINGENT LIABILITY

Pursuant to the Artisan acquisition, the Company may be obligated to pay up to another \$300,000 in the event certain financial milestones are met by April 30, 2014 (see note 3). This obligation had a fair value of \$131,000 at the time of the Artisan acquisition. During the three months ended March 31, 2013, the Company made payments in the aggregate amount of \$37,500 against this liability, and the amount of \$10,570 remains on the Company's balance sheet at March 31, 2013.

## 13. INCOME TAXES

Deferred income taxes result from the temporary differences arising from the use of accelerated depreciation methods for income tax purposes and the straight-line method for financial statement purposes, and an accumulation of net operating loss carryforwards for income tax purposes with a valuation allowance against the carryforwards for book purposes.

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. Included in deferred tax assets are Federal and State net operating loss carryforwards of approximately \$3.2 million, which will expire beginning in 2025 through 2029. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Due to significant changes in the Company's ownership, the Company's future use of its existing net operating losses may be limited.

**14. EQUITY**Reverse Stock Split

On June 13, 2012, the Company effected a reverse split of its common stock (the “Reverse Split”) in the amount of 1-for-50. The number of shares issued and outstanding immediately before the Reverse Split was 293,692,189 and 282,956,546, respectively; the number of shares issued and outstanding immediately after the Reverse Split was 5,873,801 and 5,659,130, respectively. In addition, the proposal to authorize the Board of Directors to change the Company’s domicile from Florida to Delaware was approved. All share and per share data have been retroactively restated to reflect the reverse split.

Common Stock

During the three months ended March 31, 2013, the Company issued 253,232 shares (post reverse-split) of common stock for settlement of a note. This issuance of shares was accrued in a prior period, and were carried as common stock subscribed in the company’s balance sheet at December 31, 2012.

Aggregate intrinsic value of options outstanding and exercisable at March 31, 2013 and 2012 was \$0. Aggregate intrinsic value represents the difference between the Company's closing stock price on the last trading day of the fiscal period, which was \$0.26 and \$0.33 as of March 31, 2013 and 2012, respectively, and the exercise price multiplied by the number of options outstanding.

During the three months ended March 31, 2013 and 2012, the Company charged \$7,725 and \$0, respectively, to operations related to recognized stock-based compensation expense for employee stock options.

#### Accounting for warrants and stock options

In August 2005, the Company's commitments to issue shares of common stock first exceeded its common stock authorized. At this time, the Company began to value its warrants and stock options via the liability method of accounting. Pursuant to guidance in ASC 718-40 the cost of these options were valued via the Black-Scholes valuation method when issued, and re-valued at each reporting period. The gain or loss from this revaluation was charged to compensation expense during the period. On December 27, 2012, the Company entered into the 2012 Notes Payable Extension Agreement with certain holders of its convertible notes which, among other things, created a minimum conversion price for the principal amount of the notes. Under accounting guidance provided by FASB ASC 815-40-05, this resulted in a change in accounting method for our derivative financial instruments to the equity method of accounting. We revalued our derivative liabilities at December 27, 2012, and charged the gain or loss from this revaluation to compensation expense during the period.

The Company valued warrants and options using the Black-Scholes valuation model utilizing the following variables:

	<b>March 31, 2013</b>	<b>December 31, 2012</b>

The 2013 President Employment Agreement also provides the President with a four year option to purchase 100,000 shares (post reverse-split) of the Company’s common stock at a price of \$0.40 per share (post reverse-split); a five year option to purchase 100,000 shares (post reverse-split) of the Company’s common stock at a price of \$0.57 per share (post reverse-split); and a six year option to purchase 125,000 shares (post reverse-split) of the Company’s common stock at a price of \$1.60 per share (post reverse-split); various performance-based bonus provisions; and a stock grant of 75,000 shares of the Company’s common stock which vest only if the 30 day average trading price of the Company’s common stock equals or exceeds \$1.75 per share and has average volume of at least 25,000 shares per day for 30 consecutive days..

### Principal Accounting Officer and Chief Information Officer

On January 1, 2013, the Company entered into an employment agreement with its Principal Accounting Officer and Chief Information officer (the “2013 CAO – CIO Employment Agreement”). The 2013 CAO – CIO Employment Agreement is for a term of two years, and provides a base compensation in the amount of \$135,000 per annum for year one and \$151,200 per annum for year two. The 2013 CAO – CIO Employment Agreement also provides a four year option to purchase 75,000 shares (post reverse-split) of the Company’s common stock at a price of \$0.40 per share (post reverse-split); a five year option to purchase 25,000 shares (post reverse-split) of the Company’s common stock at a price of \$0.57 per share (post reverse-split); and a five year option to purchase 60,000 shares (post reverse-split) of the Company’s common stock at a price of \$1.60 per share (post reverse-split); various performance-based bonus provisions; and a stock grant in the amount of \$15,000 in shares of the Company’s common stock.

## ITEM 2 - MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### FORWARD LOOKING STATEMENTS

The following discussion should be read in conjunction with the consolidated financial statements and the related notes thereto, as well as all other related notes, and financial and operational references, appearing elsewhere in this document.

Certain information contained in this discussion and elsewhere in this report may include "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, and is subject to the safe harbor created by that act. The safe harbor created by the Private Securities Litigation Reform Act will not apply to certain "forward looking statements" because we issued "penny stock" (as defined in Section 3(a)(51) of the Securities Exchange Act of 1934 and Rule 3(a)(51-1) under the Exchange Act) during the three year period preceding the date(s) on which those forward looking statements were first made, except to the extent otherwise specifically provided by rule, regulation or order of the Securities and Exchange Commission. We caution readers that certain important factors may affect our actual results and could cause such results to differ materially from any forward-looking statements which may be deemed to have been made in this Report or which are otherwise made by or on behalf of us. For this purpose, any statements contained in this report that are not statements of historical fact may be deemed to be forward-looking statements. Without limiting the generality of the foregoing, words such as "may", "will", "expect", "believe", "explore", "consider", "anticipate", "intend", "could", "estimate", "plan", "propose" or "continue" or the negative variations of those words or comparable terminology are intended to identify forward-looking statements. Factors that may affect our results include, but are not limited to, the risks and uncertainties associated with:

- Our ability to raise capital necessary to sustain our anticipated operations and implement our business plan,
- Our ability to implement our business plan,
- Our ability to generate sufficient cash to pay our lenders and other creditors,
- Our ability to employ and retain qualified management and employees,
- Our dependence on the efforts and abilities of our current employees and executive officers,
- Changes in government regulations that are applicable to our current or anticipated business,
- Changes in the demand for our services,
- The degree and nature of our competition,
- The lack of diversification of our business plan,
- The general volatility of the capital markets and the establishment of a market for our shares, and
- Disruption in the economic and financial conditions primarily from the impact of past terrorist attacks in the United States, threats of future attacks, police and military activities overseas and other disruptive worldwide political and economic events and weather conditions.

We are also subject to other risks detailed from time to time in our other Securities and Exchange Commission filings and elsewhere in this report. Any one or more of these uncertainties, risks and other influences could materially affect our results of operations and whether forward-looking statements made by us ultimately prove to be accurate. Our actual results, performance and achievements could differ materially from those expressed or implied in these forward-looking statements. We undertake no obligation to publicly update or revise any forward-looking statements, whether from new information, future events or otherwise.

**Critical Accounting Policy and Estimates****Use of Estimates in the Preparation of Financial Statements**

The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. These estimates include certain assumptions related to doubtful accounts receivable, stock-based services, valuation of financial instruments, and income taxes. On an on-going basis, we evaluate these estimates, including those related to revenue recognition and concentration of credit risk. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. We believe our estimates have not been materially inaccurate in past years, and our assumptions are not likely to change in the foreseeable future.

On August 25, 2005, the Company entered into contracts which obligated the Company under certain circumstances to issue shares of common stock in excess of the number of shares of common stock authorized. Under accounting guidance provided by FASB ASC 815-40-05, effective August 25, 2005 the Company began to account for all derivative financial instruments, including warrants, conversion features embedded in notes payable, and stock options, via the liability method of accounting. Accordingly, all these instruments were valued at issuance utilizing the Black-Scholes valuation method, and were re-valued at each period ending date, also using the Black-Scholes valuation method. Any gain or loss from revaluation was charged to operations during the period.

On December 27, 2012, the Company entered into agreements (the “2012 Notes Payable Extension Agreement”) affecting the terms of certain of its convertible notes payable. One of these changes established a minimum conversion price for these notes of \$0.05. Under accounting guidance provided by FASB ASC 815-40-05, this resulted in a change in accounting method for these instruments from derivative accounting to equity accounting. The Company revalued these instruments at December 27, 2012 using the Black-Scholes valuation method. Any gain or loss in value was charged to operations.

**(a) Warrants:**

The following table illustrates certain key information regarding our warrants and warrant valuation assumptions at March 31, 2013, and 2012:

	<b>March 31,</b>

**(b) Embedded conversion features of notes payable:**

The Company accounts for conversion options embedded in convertible notes in accordance with ASC 815-10-05. ASC 815-10-05 generally requires companies to bifurcate conversion options embedded in convertible notes and preferred shares from their host instruments and to account for them as free standing derivative financial instruments in accordance with ASC 815-40-05.

The Company values embedded conversion features utilizing the Black-Scholes valuation model. Conversion options are valued upon issuance, and re-valued at each financial statement reporting date. Any change in value is charged to income or expense during the period. The following table illustrates certain key information regarding our Conversion options and conversion option valuation assumptions at March 31, 2013 and 2012:

(c) Stock options:

The Company accounts for options in accordance FASB ASC 718-40. Options are valued upon issuance, and re-valued at each financial statement reporting date, utilizing the Black-Scholes valuation model. Option expense is recognized over the requisite service period of the related option award. Any change in value is charged to income or expense during the period. Background

We were initially formed in June 1979 as Alpha Solarco Inc., a Colorado corporation. From June 1979 through February 2003, we were either inactive or involved in discontinued business ventures. In February 2003 we changed our name to Fiber Application Systems Technology, Ltd.

In January 2004, we changed our state of incorporation by merging into Innovative Food Holdings, Inc. ("IVFH"), a Florida shell corporation. As a result of the merger we changed our name to that of Innovative Food Holdings, Inc. In February 2004 we also acquired Food Innovations, Inc. ("FII") a Delaware corporation incorporated on January 9, 2002 and through FII and our other subsidiaries we are in the business of national food distribution and sales using third-party shippers.

On May 18, 2012, the Company executed a Stock Purchase Agreement to acquire all of the issued and outstanding shares of Artisan Specialty Foods, Inc., an Illinois corporation ("Artisan"), from its owner, Mr. David Vohaska. The purchase price was \$1.2 million, with up to another \$300,000 (with a fair value of \$131,000) payable in the event certain financial milestones are met by April 30, 2014. The purchase price was primarily financed via a loan from Alpha Capital in the principal amount of \$1,200,000. Prior to the acquisition, Artisan was a vendor and had sold products to the Company.

#### Transactions With a Major Customer

Transactions with a major customer and related economic dependence information is set forth (1) following our discussion of Liquidity and Capital Resources, (2) Concentrations of Credit Risk in Note 2 to the Condensed Consolidated Financial Statements, and (3) as the fourth item under Risk Factors.

#### **Relationship with U.S. Foods**

In February 2010, one of our subsidiaries, Food Innovations, signed a new contract with U.S. Foods ("USF"). This contract with USF expired on December 31, 2012. However, the contract provides that it automatically renews for an additional 12-month term unless either party notifies the other in writing 30 days prior to the end date of its intent not to renew. Inasmuch as neither party gave the requisite notice, the agreement was automatically extended through December 31, 2013. We believe that although a significant portion of our sales occurs through the USF sales force, the success of the program is less contingent on a contract than on the actual performance and quality of our products. Other than our business arrangements with USF, we are not affiliated with either USF or its subsidiary, Next Day Gourmet, L.P. ("Next Day Gourmet"). During the three months ended March 31, 2013 and 2012, sales to USF accounted for 69.4% and 91.2% of total sales, respectively.

#### **RESULTS OF OPERATIONS**

The following is a discussion of our financial condition and results of operations for the three months ended March 31, 2013 and 2012.

This discussion may contain forward looking-statements that involve risks and uncertainties. Our future results could differ materially from the forward looking-statements discussed in this report. This discussion should be read in conjunction with our unaudited condensed consolidated financial statements, the notes thereto and other financial information included elsewhere in the report.

#### **Three Months Ended March 31, 2013 Compared to Three Months Ended March 31, 2012**

##### Revenue

Revenue increased by \$2,322,014 or approximately 70.7% to \$5,607,321 for the three months ended March 31, 2013 from \$3,285,307 in the prior year. \$1,404,062 or approximately 42.7% of the increase was attributable to the acquisition of Artisan. The remaining increase is attributable to a significant increase in sales of specialty items, and smaller increases in meat and game and cheese products, partially offset by decreases in seafood and poultry products. We continue to assess the potential of new revenue sources from the manufacture and sale of proprietary food products and additional sales channel opportunities and will implement that strategy if, based on our analysis, we deem it beneficial to us.

Any changes in the food distribution operating landscape that materially hinders our current ability and/or cost to deliver our products to our customers could potentially cause a material impact on our net revenue and gross margin and, therefore, our profitability and cash flows could be adversely affected.

Currently, a small portion of our revenues comes from imported products or international sales. Our current sales from such segments may be hampered and negatively impacted by any economic tariffs that may be imposed in the United States or in foreign countries.

See "Transactions with Major Customers" and the Securities and Exchange Commission's ("SEC") mandated FR-60 disclosures following the "Liquidity and Capital Resources" section for a further discussion of the significant customer concentrations, loss of significant customer, critical accounting policies and estimates, and other factors that could affect future results.

### Cost of goods sold

Our cost of goods sold for the three months ended March 31, 2013 was \$4,034,294, an increase of \$1,422,312 or approximately 54.5% compared to cost of goods sold of \$2,611,982 for the three months ended March 31, 2012. Cost of goods sold is primarily made up of the following expenses for the three months ended March 31, 2013: cost of goods of specialty, meat, game, cheese poultry and other sales categories in the amount of \$3,068,012; and shipping expenses in the amount of \$834,285. The cost of goods sold increase is mainly associated with the increase in sales, largely due to the Artisan acquisition. Total gross margin improved to 28.1% of sales in 2013, compared to 20.5% of sales in 2012.

In 2013, we continued to price our products in order to gain market share and increase the number of our end users. We were successful in both increasing sales and increasing market share. We currently expect, if market conditions and our product revenue mix remain constant, that our cost of goods sold will either remain stable or likely improve slightly.

### Selling, general and administrative expenses

Selling, general, and administrative expenses increased by \$540,977 or approximately 82.0% to \$1,200,614 during the three months ended March 31, 2013 compared to \$659,637 for the three months ended March 31, 2012. Selling, general and administrative expenses were primarily made up of the following for the three months ended March 31, 2013: payroll and related expenses, including employee benefits, in the amount of \$745,475 (including the value of options issued in the amount of \$7,725); facilities expense in the amount of \$63,351; bad debt expense in the amount of \$60,812; insurance expense in the amount of \$59,068; office expense in the amount of \$45,389; computer support expenses in the amount of \$32,514; amortization and depreciation in the amount of \$27,988; consulting and professional fees in the amount of \$24,422; travel and entertainment expenses in the amount of \$18,693; share based compensation in the amount of \$35,662; credit card expenses in the amount of \$23,616; vehicle expenses in the amount of \$10,394; commissions expense in the amount of \$8,999; and advertising expense in the amount of \$4,865. The increase in selling, general, and administrative expenses was primarily due to increases in volume, and the acquisition of Artisan Specialty Foods which has higher selling general and administrative expenses than other Innovative Food Holdings historical levels. We expect our selling, general, and administrative expenses to remain steady or slightly decrease in 2013.

### Interest expense

Interest expense, net of interest income, increased by \$296,496 or approximately 643.6% to \$342,565 during the three months ended March 31, 2013, compared to \$46,069 during the three months ended March 31, 2012. The primary reason for the increase was due to the amortization of the discount on the note payable related to the financing of the Artisan acquisition.

### Loss from change in fair value of warrant liability

On December 27, 2012, the Company entered into the 2012 Notes Payable Extension Agreement, which affected the terms of certain of its convertible notes payable. Under accounting guidance provided by FASB ASC 815-40-05, this resulted in a change in accounting method for the Company's warrants from derivative accounting to equity accounting. Accordingly, the Company did not revalue these instruments at March 31, 2013. The Company revalued these instruments at March 31, 2012 using the Black-Scholes valuation method. This revaluation resulted in a loss of \$193,821 which the Company included in operations during the three months ended March 31, 2012. There was no such comparable gain or loss during the current period.

### Gain and loss from change in fair value of conversion option liability

On December 27, 2012, the Company entered into the 2012 Notes Payable Extension Agreement which affected the terms of certain of its convertible notes payable. Under accounting guidance provided by FASB ASC 815-40-05, this resulted in a change in accounting method for the Company's conversion options from derivative accounting to equity accounting. Accordingly, the Company did not revalue these instruments at March 31, 2013. The Company revalued these instruments at March 31, 2012 using the Black-Scholes valuation method. This revaluation resulted in a loss of \$378,435, which the Company included in operations during the year three months ended March 31, 2012. There was no such comparable gain or loss during the current period.

### Net Income (loss)

For the reasons above, the Company had a net income for the three months ended March 31, 2013 of \$29,848, an increase of \$634,485 compared to a net loss of \$604,637 during the three months ended March 31, 2012.

## **Liquidity and Capital Resources**

As of March 31, 2013, the Company had current assets of \$2,515,749 consisting of cash of \$901,637, trade accounts receivable of \$1,052,407, inventory of \$546,612, and other current assets of \$14,583. Also at March 31, 2013, the Company had current liabilities of \$2,262,245, consisting of accounts payable and accrued liabilities of \$1,346,372 (of which \$75,280 is payable to related parties); accrued interest of \$782,992 (of which \$42,046 is payable to related parties); current portion of notes payable, net of discounts, of \$11,811; current portion of notes payable – related parties, net of discounts of \$110,500; and a contingent purchase price liability of \$10,570.

During the three months ended March 31, 2013, the Company used cash in operating activities in the amount of \$74,708. This consisted of the Company's net income of \$29,848, increased by non-cash charges for the amortization of discount on notes payable of \$305,048; depreciation and amortization of \$63,998; and non-cash compensation in the amount of \$35,662. The Company's cash position was also reduced by \$509,254 as a result of a change in the components of current assets and current liabilities as well as a result of the payment of bonuses owed for 2012. The acquisition of Artisan had an effect on the components of the Company's working capital. The following amounts were associated with Artisan at March 31, 2013: cash of \$161,865; accounts receivable of \$379,827; inventory of \$477,053; other current assets of \$8,333; accounts payable and accrued liabilities of \$373,872; and current portion of lease payable of \$11,811.

The Company had cash used by investing activities of \$803,544 for the three months ended March 31, 2013, which consisted of a cash paid for the acquisition of land, building, and related furniture and fixtures. Company had cash provided by financing activities of \$432,860 for the three months ended March 31, 2013, which consisted of net proceeds from the issuance of notes payable in the amount of \$546,000, offset by principal payments on notes payable of \$110,352 and principal payments on notes payable to a related party of \$2,788.

The Company had net working capital of \$252,994 as of March 31, 2013. We have generated positive cash flow from operations during the years ended December 31, 2012 and 2011. In addition, the Company's auditors removed the going concern qualification to the audit opinion on the Company's financial statements for the year ended December 31, 2012. The Company intends to continue to focus on increasing market share and cash flow from operations by focusing its sales activities on specific market segments and new product lines. Currently, we do not have any material long-term obligations other than those described in Note 10 to the financial statements included in this report. As we seek to increase our sales of perishables, as well as identify new and other consumer and food service oriented products and services, we may use existing cash reserves, long-term financing, or other means to finance such diversification.

If the Company's cash flow from operations is insufficient, the Company may require additional financing in order to execute its operating plan and continue as a going concern. The Company cannot predict whether this additional financing will be in the form of equity or debt, or be in another form. The Company may not be able to obtain the necessary additional capital on a timely basis, on acceptable terms, or at all. The Company expects that any sale of additional equity securities or convertible debt will result in additional dilution to our stockholders.

In any of these events, the Company may be unable to implement its current plans for expansion, repay its debt obligations as they become due or respond to competitive pressures, any of which circumstances would have a material adverse effect on its business, prospects, financial condition and results of operations. The Company has not made any adjustments to the financial statements which would be necessary should the Company not be able to continue as a going concern.

### **Off-Balance Sheet Arrangements**

We have no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues, or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

### **Inflation**

In the opinion of management, inflation has not had a material effect on the Company's financial condition or results of its operations.

### **RISK FACTORS**

The Company's business and success is subject to numerous risk factors as detailed in its Annual Report on Form 10-K for the year ended December 31, 2012 which is available at no cost at [www.sec.gov](http://www.sec.gov).

## ITEM 4 - CONTROLS AND PROCEDURES

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit pursuant to the requirements of the Securities Exchange Act of 1934 is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, among other things, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file under the Exchange Act is accumulated and communicated to our management, including our principal executive and financial officers, as appropriate, to allow timely decisions regarding required disclosure.

### (a) Evaluation of disclosure controls and procedures

Our Principal Executive Officer and Principal Financial Officer, after evaluating the effectiveness of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of the end of the period covered by this Quarterly Report, have concluded that as of that date, our disclosure controls and procedures were adequate and effective to ensure that information required to be disclosed by us in the reports we file or submit with the Securities and Exchange Commission is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. The conclusions notwithstanding, you are advised that no system is foolproof.

### (b) Changes in internal control over financial reporting

There were no changes in our internal control over financial reporting identified in connection with the evaluation required by Exchange Act Rules 13a-15(d) and 15d-15 that occurred during the period covered by this Quarterly Report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
